Fisher and Paykel

By accessing and using this website you agree to our Terms and Conditions and Privacy Policy. We use cookies for various reasons, learn more.

plete solar offering takes care of everything—from assessing your home ght hardware, installing it, and providing ongoing support.

In the past home energy was delivered by a series of products from different suppliers, drawing power from the grid in an

uncoordinated way. Fisher and Paykel are changing that. With Fisher & Paykel Home Solutions, you get a fully integrated system from a single trusted provider.

It's all connected—from design to installation, ensuring a smoother process and better results. Whether you're building a new home, upgrading an existing one, or working on a commercial project, we'll work alongside you to bring it all together.

For over 90 years, Fisher & Paykel has been at the forefront of innovation. With Home Solutions, they're leading a new era in home energy generation and management for a greener future. Our vision is simple—data-backed carbon reduction that saves you money and delivers total comfort.

Curious about how to lower your energy bills, transition away from fossil fuels, and create a more sustainable, comfortable home? Let's get started.

Flex Electrical Ltd

Flex Electrical Ltd is a family run company servicing Wellington, South Wairarapa, and the Kapiti Coast. Their team of electricians, solar installers, and electrical inspectors can guide you to a solution that works best for you.
